WELCOME ADDRESS

Dear nurses and allied professionals,

You are invited to join the 4th Symposium for Nurses and allied professionals at the European Society of Thoracic Surgeons' (ESTS) 25th conference in Innsbruck, Austria 2017. The symposium for nurses and allied professionals will take place the 29th – 30th of May. The symposium will cover a varied choice of topics within the care and treatment for the general thoracic surgical patient and we will get together and present our project and share our knowledge, expertise and experiences.

TOP REASONS TO ATTEND THE SYMPOSIUM:

- Present your paper, project, knowledge or experience in the largest international symposium for nurses and allied professionals in general thoracic surgery
- Meet and interact with nurses and allied professionals from a range of different countries
- Learn more about the pre-, peri- and postoperative care and treatment of patients with thoracic diseases or traumas
- Add to the emerging relationship among nurses and allied professionals within thoracic surgery
- Develop competencies and a better and more evidence-based clinical practice for the benefit of the patients
