

November 5th-6th 2021

# 8th ESTS - INTERNATIONAL THORACIC ONCOLOGY Symposium 2021

## **SCIENTIFIC RATIONALE**

The event will consist of four sessions focused on specific topics of relevant interest in the field of **thoracic oncology**; controversial topics will be addressed and debated among health professionals, while there will also be a new session dedicated to the discussion of modern managerial theories concerning the increase of effectiveness, the reduction of errors and the reduction of costs.

At the end of the course participants will be able to:

- have a deeper knowledge of diagnostic modalities for thoracic malignancies
- be familiar with the most up to date form of treatment according to stage
- be able to choose and offer the patient several therapeutic modalities with an explanation of advantages and disadvantages
- be confident in drawing a treatment plan involving several specialists and treatment modalities (surgery, oncology and radiotherapy).

The aim of the course is to provide an integral update on the therapies of thoracic malignant tumors, evaluating in particular the importance of multimodal therapy; multidisciplinarity therefore presupposes the presence of highly specialized professionals, namely thoracic surgeons, chest physicians and oncologists.

# **SCIENTIFIC DIRECTOR**

**Dr. Federico RAVEGLIA** 

# NOVEMBER 5th 2021 • SCIENTIFIC PROGRAMME

08:15-08:45	Start of the connection to the WEBINAR and opening
08:45-09:00	Greetings from Scientific Director and Authorities
Session I	HOW TO APPROACH IIIA STAGE NON SMALL CELL LUNG CANCER
09:00-09:20	Subgroups of Stage IIIA lung cancer: Does it matter?
09:20-09:40	Mediastinal staging: When and with which method?
09:40-10:00	Surgery versus Curative Chemoradiation: What does the evidence show?
10:00-10:20	Chemotherapy or ChemoRT: Impact on early surgical outcomes
10:20-10:40	How to approach locoregional failure after neoadjuvant or curative treatment?
10:40-11:00	Questions and discussion
11:00-11:30	Break
11:30-11:50	Could robotic surgery boost lung resection role in IIIA stage patients?
11:50-12:10	
12:10-12:30	
12:30-12:50	
12:50-13:10	What is the best approach? Clinical examples T3N1M0 - T1-3N2M0 - T4N0M0
13:10-13:30	Questions and discussion
13:30-14:30	Lunch
Session II	THYMOMA AND THYMIC CARCINOMA
14:30-14:50	Update on stage and classification
14:50-15:10	The role of imaging in Histology, Stage and Prognosis determination in patients
	referred to surgery for thymoma
	Prognostic factors for surgically treated thymoma and thymic carcinoma
15:30-15:50	
15:50-16:00	Questions and discussion
16:00-16:30	Break
Session III	CLINICAL CASES
14.20 14.50	
10:30-10:50	Case one: stage IIIA (induction therapy)
	Case one: stage IIIA (induction therapy) Case two: IIIA (surgery upfront)
	Case two: IIIA (surgery upfront)
16:50-17:10	Case two: IIIA (surgery upfront) Case three: IIIA (salvage surgery)

# NOVEMBER 6th 2021 · SCIENTIFIC PROGRAMME

08:00-08:30 Start of the connection to the WEBINAR and opening

# Session IV OPTIMIZE RESOURCES AND DELIVER EXCELLENT PATIENT CARE INTHORACIC SURGERY 08:30-08:50 How to reduce mistakes in thoracic surgery lmprove Wait Time Performance in Diagnostic Assessment for Lung Cancer and patient experience of care 09:10-09:30 The role of Robotic surgery in a continuing process improvement program for thoracic surgery 109:30-09:50 LEAN lobectomy. Efficiency improvement in the operating room 109:50-10:10 Excellence also passes from surgeons' optimal physical, mental and emotional life 10:10-10:30 Fit for surgery, where do we draw the line?

# Session V MALIGNANT PLEURAL MESOTHELIOMA: AN UPDATE ON DIAGNOSIS AND TREATMENT OPTIONS

10:30-11:00 Break

11:00-11:20	The role of surgery in the individualized treatment era for malignant mesothelioma
11:20-11:40	The role of biomarker-guided targeted and immunotherapies in mesothelioma
11:40-12:00	The role of imaging in malignant pleural mesothelioma: comparison between MRI
	and CT in the assessment of tumor volume
12:00-12:30	Focus on surgery: pro and contra. Experts in comparison
12:30-12:40	Questions and discussion
12:40-13:00	Closing remarks and greetings

### **GENERAL INFORMATION**

#### DATE

5th - 6th November 2021

Webinar Edition

#### **PROVIDER (N. 758) AND ORGANIZING SECRETARIAT**

MICOM S.r.l. - Provider ID 758 Via B.Verro, 12 - 20141 Milano

Tel. +39 02 895 18895 - Fax +39 02 895 18954

E-mail: micom@micom.it - Sito Internet: www.micom.it

#### **ACCREDITATIONS**

An application will be made to the UEMS EACCME® for CME accreditation of this event

# ITALIAN ACCREDITATION (CME)

The event "ESTS - 8TH INTERNATIONAL THORACIC ONCOLOGY SYMPOSIUM

**2021"** is included in the list of definitive CME events of the training program 2021 of the accredited Provider MICOM (code ID 758). To obtain the credits, the participants must: being specialized exclusively in the disciplines indicated in the program, attend 90% of the scientific works (the presence will be checked by signature on register), pass the learning TEST (through questionnaire); return the quality sheet received, return the completed documentation to the secretariat.

Events Code: under processing

Accredited category: Medical Surgery, Medical Surgery Health Technician, Nurse, Physioterapist Main disciplines: Medical Surgery: Thoracic Surgery, Allergology and clinical immunology, Anesthesia and resuscitation, Clinical pathology (laboratory of chemical-clinical analysis and microbiology), Diseases of the respiratory system, General Surgery, Internal medicine, Nuclear medicine, Oncology, Pathological anatomy, Radiodiagnostics, Radiotherapy, Vascular Surgery

**Training objective**: Clinical Documentation. Clinical paths for diagnostic and rehabilitative care, care profiles - care profiles (Process training area)

N° of participants: 400

Origin of participants: International

Training hours: 12

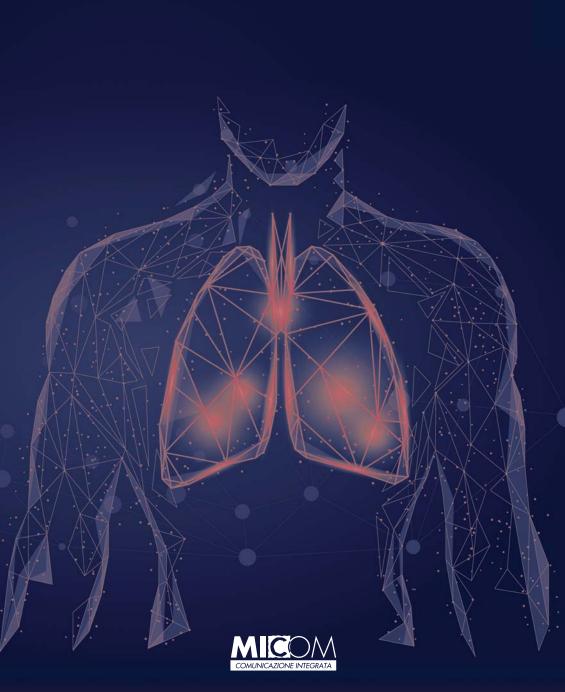

Credits assigned: under processing

#### **REGISTRATION FEE**

Registration cancellation policy: no refund will be possible after registration

#### **REGISTRATION PROCEDURE**

You can confirm your participation through the event web site <a href="http://www.thoraciconcology.it">http://www.thoraciconcology.it</a>.
