30th ESTS MEETING

19 - 21 JUNE 2022 • THE HAGUE, THE NETHERLANDS

WELCOME ADDRESS

Welcome back
We missed you!!!

Since our last ESTS meeting in Dublin Sars-coV-2 really changed the world in many ways, due to its massive impact on almost everything in the world. After 2 years of unwanted but necessary virtual ESTS and other meetings, the time is here to physically meet again amongst thoracic surgeons, residents, trainees, (specialized) nurses, OR crew, industry and all interested in this fantastic domain in medicine.

We therefore are extremely delighted to welcome you to The Hague, The Netherlands, for the ESTS Annual Meeting 2022

Holland is much more than tulips, windmills, canals and wooden shoes, and The Hague proves this. In this city the parliament resides, the King has his working and private palace but also the Embassies, the International Court of Justice and the International Criminal Court are located here.

The third largest city of Holland has the largest coastline: more than 11 km beach and two famous and popular seaside resorts: Scheveningen and Kijkduin.

It has the grandeur of a royal residence and the friendliness of a small town in a multicultural and truly international setting.

The Hague as a city and ESTS and this meeting match perfectly:

The European Society of Thoracic Surgeons is about International collaboration, learning together and sharing experience and knowledge but also preparing the future generation in a rapidly changing surgical world. Equally important are the friendships, networks and a perfect environment to get in touch with the Industry.

The ESTS meeting is the place where members and many other colleagues meet and we would like you to be part of this. Please also bring your team members: (specialized) nurses, OR team members: we can only perform as a team.

Join the plenary sessions, come to the breakfast meetings and social events, learn from colleagues, tell us about your own expertise and experience.

Learn about new techniques, new instruments, and new possibilities within our profession and about disease management, let's talk about new topics; how to get the patient fit for surgery (prehabilitation) and how can we stay fit to perform and last but not least how we manage sustainability in Health Care f.e, within our OR.

The world is changing rapidly and many challenges are ahead of us and thoracic surgery and present and future surgeons have to move along.

In other words: learn, share, teach and enjoy, where after 2 years of no physical ESTS meetings, this is the occasion to renew and refresh our social interactions live!

We can do this together in The Hague 2022 where we all wholeheartedly welcome you on behalf of the Local Organizing Committee.

Willem-Hans Steup
Chair of LOC

30th ESTS MEETING

19 - 21 JUNE 2022 • THE HAGUE, THE NETHERLANDS

WELCOME ADDRESS

Dear Colleagues, Dear Friends,

On behalf of the Board of Directors and the Program Committee it is a great pleasure to invite you to the 30th ESTS meeting next June 19-21 in The Hague, Netherlands.

The last couple of years have been a very difficult time and we have gone through personal and professional hardship and sorrow. The scientific community has been physically separated and many of those events which in the past we considered a nice routine have been violently scrapped from our lives. We have been forced to communicate and learn science through online events and webinars. They were very effective in keeping us up to date with the latest scientific evidence, but they were not enough.

A scientific congress is not just a series of lectures or talks delivered from a podium, there is much more. There is the social interaction, meeting old friends and making new acquaintances which may turn to become lifelong, discussing a project over a coffee, inviting colleagues to spend time in our unit. Especially for young doctors, a congress represents the unique opportunity to meet renown surgeons and perhaps establish connections that can lead to new professional opportunities.

There is a congress beyond the congress which for most is even more relevant than the lectures or symposia.

I am happy to inform you that the Board and Program Committee have agreed this year to revert to a face to face meeting. It is particularly symbolic that the next Congress, the congress which will epitomise the return to our beloved "normality", will be the 30th Annual Congress of our Society. An important birthday for ESTS.

The Program Committee has been working hard to put together a vibrant and comprehensive program. A program which will be up to the expectations of our many thoracic surgical colleagues who have continued to faithfully support our Organisation during the last period.

Improving patient care through training and education is the core value of ESTS and we will always do our best to align our activities and our programs to this mission statement.

Dear Colleagues and Friends, as President of ESTS, the world's largest society for General Thoracic Surgery, I am very happy and honoured to welcome all of you to The Hague next June to share and learn the most up to date evidence in our speciality and to enjoy networking with your friends and colleagues.

Alessandro Brunelli
ESTS President

30th ESTS MEETING

19 - 21 JUNE 2022 • THE HAGUE, THE NETHERLANDS

WELCOME ADDRESS SYMPOSIUM FOR NURSES AND ALLIED HEALTH PROFESSIONAL Monday 20 June

Dear Nursing & Allied Health Colleagues

We would like to invite you to the 7th Nursing & Allied Health Professionals Symposium at the 30th ESTS conference in The Hague, Netherlands 2022.

The symposium will cover a variety of topics within thoracic surgery that are of interest to this specialist group. The presentations throughout the day will be delivered by invited speakers, oral presentations, posters and workshop based learning.

This is the most important and largest international symposium for thoracic surgery. The organization and efficiency of care is different in every country, not necessarily better or worse, but we can learn from each other to optimize the care for our patients as optimal as possible. This symposium is an excellent opportunity to share experiences. By transferring knowledge and skills, but above all by getting to know each other and networking together.

This may offer opportunities to make clear international agreements regarding the care of thorax surgery.

The symposium will also contribute to a positive stimulus for your professional development.

Important and recent studies in the field of thoracic surgery are discussed. And perhaps it challenges you to participate in research to further develop and qualitatively improve the care provided to this patient group.

In our opinion the outcome of all our work in thoracic surgery yields the most optimal benefit for our patients and ourselves if we perform as a team. Please consider to attend this meeting and the submission of abstracts therefore as a team, both for a high level scientific and social learning event.

Have you become enthusiastic about thoracic surgery?
Or sign up for an interesting workshop that you want to share.
Simply register for the symposium!

Feel welcome in our hospitable The Hague from 19-21 June 2022 and enjoy what the ESTS and the Netherlands has to offer.

**When participating in the nursing programme,
you are welcome to join the other
scientific sessions as well.**

ESTS POSTGRADUATE SYMPOSIUM-MASTER CUP

SUNDAY, 19 JUNE 2022 08:00 - 12:00 h ·

KING WILLEM ALEXANDER

Organisers: Hermien Schreurs (Alkmaar/NL)
Nuria Novoa (Salamanca/ES)

Each year the ESTS Postgraduate Symposium brings the Thoracic Surgery world up to date with the latest news/development and science in our field in those areas which represents part of our daily practice.

To spice up the atmosphere, we will review all this contents in a high-level competition in which three teams of young surgeons will fight out to win the ESTS Master Cup.

Prizes

The ESTS Master Cup for the best scoring team:
Three scholarships for the ESTS School of Thoracic Surgery Knowledge Track Course of 2023 to the best junior surgeon of each team based on the best performing on general questions.

ESTS audience awards:

These are awarded for the top 3 audience's responses regarding the presented topics.

- ESTS Award for the best audience performer: a free registration for the 2023 School of Thoracic Surgery OR a free registration to 2023 Annual Meeting.
- ESTS Award for the second best audience performer: a free registration for the 2023 Medical Writing Course OR a free registration to 2023 Annual Meeting.
- ESTS Award for the third best audience performer: a free registration to 2023 Annual Meeting.

Format

The 2022 Postgraduate Course – Master Cup will be structured as a contest in which a designated expert will provide questions and cases for discussion about a specific topic.

Three teams will compete. Each will be composed of 1 captain and 4 trainees. This year due to the difficulties posed by the pandemic, participants will be chosen and assigned in strict order of request to the different teams. The course, except last minute suspension, will be held live during the congress. Therefore, participants must be able to travel to the conference venue.

There will be 5 identical sessions, one for each topic. Each session will be structured as follows:

1. The expert will give a brief introduction of the topic (2 min).
2. The expert will formulate six questions to all the teams at the same time and to the audience
3. Participants will have up to 1 minute to reply to the questions. The audience will answer to the questions from the floor using the App and benefitting from the same time allotted to the responding teams
4. At the end of each question: the audience voting for each question will be revealed.
5. Teams: For each correct answer a point will be added, for each incorrect answer half a point will be subtracted. Audience will not score negatively.
6. The expert will explain the correct solution according to the evidence-based data.
Solutions can be provided individually for each question or globally at the end.
7. The expert presents a summary of the most relevant data and a final educational message (4-5 minutes)
8. After the five rounds of questions are finished, the final round of questions will take place.

In this round each expert will ask two articulated questions based on real-case scenario related to their topic.

PRIZES AND AWARDS

The following prizes will be awarded:

- **ESTS – Brompton Prize – 2000 EUR**

The Brompton Prize is offered for the best thoracic presentation by an ESTS member, first author at the Brompton Session and comes courtesy of the Trustees of the fund initiated by Professor Peter Goldstraw. It is an annual prize instituted at the 8th European Conference on General Thoracic Surgery held in London November 2000.

The winner will be asked to give a one minute summary without slides of their study during the award ceremony at the ESTS Party.

- **ESTS – Young Investigator Award – 2000 EUR**

To stimulate research/ESTS has instituted a prize for the best presentation on topics of clinical or experimental research in the field of thoracic surgery by an ESTS member below the age of 35.

The winner will be asked to give a one minute summary without slides of their study during the award ceremony at the ESTS Party.

- **ESTS-AATS Foundation Excellence Award – 2000 EUR**

This prize is offered by the AATS Foundation and awarded for the best overall scientific contribution in Pulmonary Neoplastic I / Pulmonary Neoplastic II sessions

- **ESTS – Grillo Prize – 1000 EUR**

The prize is offered to the best overall abstract in the sessions “Experimental/Innovative Techniques I / Experimental Innovative Techniques II” and is named after our deceased honorary member Hermes Grillo (Boston). The prize was initially awarded in 2009 by Professor Douglas Mathisen of the Massachusetts General Hospital, a colleague and friend of Professor Hermes Grillo.

- **ESTS- JACS Award - 1000 EUR**

This prize is offered to the best abstract by an ESTS member from an Asian Institute.

- **ESTS – Poster Prize – 500 EUR**

This prize is offered for the best poster presentation

- **ESTS – Junior Poster Prize**

Complimentary registration to the 31st European Conference on General Thoracic Surgery, 2023.

This prize is offered for the best poster presentation

- **ESTS – Dutch Society for Lung Surgery Travel Grant – 1000 EUR**

This grant is offered by the Dutch Society for Lung Surgery and was created to support a young abstract presenter from a low-middle income country.

- **ESTS – DGT Travel Grant – 1000 EUR**

This grant is offered by the Deutsche Gesellschaft für Thoraxchirurgie (DGT) and was created to support a member of ESTS from a low- to middle-income-country, who is below the age of 40 and is the first author of an abstract.

- **ESTS – FSTCVS Travel Grant – 1000 EUR**

This grant is offered by the French Society for Thoracic and Cardiovascular Surgery. It will be offered to the best oral presentation of clinical work by an author below the age of 35 from a low-middle income country.

- **ESTS Biology Club**

ESTS Fellowship Award - a research fellowship award offered to young scientists and clinicians.

- **SYMPOSIUM FOR NURSES**

Prize award session: Best Abstract 500 euros award

30th ESTS MEETING

19 - 21 JUNE 2022 • THE HAGUE, THE NETHERLANDS

WELCOME TO THE HAGUE

Welcome to the city that matters

In The Hague, we have over 150 international organisations, knowledge institutions, NGO's and more who are working towards peace and justice every day. Its heritage of being a decision-making and influential place is how The Hague developed the reputation of being The International City of Peace and Justice.

The Hague is one of the greenest cities in Europe. It is the only large Dutch city next to the sea, just a stone's throw away from the historic city center you will find an 11-kilometer-long beach.
